Template Appointment Checklist

INSTALL CABINETS

New cabinetry must be completely installed. Any modifications to the cabinets must be completed.

CLEAR OFF EXISTING COUNTERTOPS

Surfaces must be clear of any and all objects.
This includes paper towel holders, dishes, decor, small appliances, etc. We mean EVERYTHING!

INSTALL FARM SINK

If your new sink is a farmhouse/apron front style of sink, it must be fully installed and in it's final position in the cabinet before we arrive. Cabinets installed by CKF will already have this completed.

Standard undermount sinks will be installed with your countertops.

IMPORTANT!

Cabinets or walls cannot be modified or moved once we submit your order.
Any changes in your space WILL affect the countertop design!
