SenGuard Protection

SenGuard is a proprietary stone treatment that is used to protect Sensa granite from staining. SenGuard is not a sealer and bonds to the granite surface differently than sealers. The SenGuard treatment, unlike common sealers, allows the stone to breathe by anchoring to the stone lattice while preserving the stone's natural, beautiful color for years to come.

Sensa Advantages

Excellent stain resistance

Unique designs created by nature

No special sealers or maintenance required

Certified and approved for direct contact with food
